Since the late 1990s HTR Engineering has been providing Engineering and ITC services to the Defence sector. HTR Engineering is now a significant preferred supplier to the DSS Panel and the DSTG Panel.

HTR Engineering provides the Defence and Engineering Sectors with highly skilled SEA, AIR and LAND Engineers and IT consultants who are available on short notice for short to medium- or long-term engagements with or without AGSVA Security Clearance.

HTR Engineering recognises that clients require a range of flexible options to meet their needs for highly skilled resources for short, medium- and long-term Engineering projects. We offer Engineering and ITC skill sets aligned to meet client needs, under flexible terms of engagement and with rapid turnaround. Where skills shortages exist, HTR Engineering operates Australian Visa sponsorship pathway to efficiently relocate overseas skilled resources into Australia.

We are accredited with the following Defence Support Services (DSS) Panels:

Competency Assessment and Professional Body Sponsorship and Certification Services

General Authoring & Writing Services

Integrated Logistics Support Management

Learning and Development (L&D) Implementation and Administration Services
